ILLINOIS GLASS COMPANY
PATENT DEPARTMENT
TOLEDO, OHIO
INTRODUCTORY.

27845

In presenting this New Edition of our complete Illustrated Catalogue to our friends and patrons, we wish to express our appreciation of and gratitude for continued generous business favors.

We would also respectfully direct attention to large additions to our line of bottles and to a change in the list prices of some articles and sizes in order to make our listed prices conform with those adopted by the Eastern and Western Flint Bottle Manufacturers, June 12th, 1900.

This Catalogue supersedes all previous issues, and is hereby respectfully commended to all Bottle Buyers in the hope that its pages may prove helpful.

ILLINOIS GLASS CO

Subject Matter:

Of necessity, only bottles of common use and design are shown in a Catalogue of this kind, all special and proprietary designs belonging to our customers. The volume of our sales on Private Mould bottles, designed and used for special needs, largely exceeds that on stock ware. Were the object of this book simply to make it original and to advertise the extent of our business, it would present a very different appearance. Under the caption of "Moulds for Special Shapes," page 14, we have tried in brief to offer a few suggestions to users of special bottles, which we trust may be of value.

Illustrations:

Special effort has been made to truthfully show the actual lines and proportions of each and every object for illustration, all cuts being prepared by photographic methods. Each and every picture may thus be depended upon to show the actual appearance of its original. We hope they may be serviceable to buyers in the selection and sale of bottles.

CONTENTS.

[illegible]

DISCOUNT.

Where prices are shown in this Catalogue they are subject to our trade discounts, which, of necessity, are liable to variation. We cannot undertake to notify the trade of changes, and guarantee no prices beyond the immediate present.

TERMS.

Payments are expected in all cases in funds equal in value to United States Treasury Notes or Exchange on St. Louis or Chicago.

First orders from parties with whom we have no acquaintance should be accompanied with cash or satisfactory reference.

Our regular terms are 60 days, or 2 per cent discount for cash within ten days from date of Invoice.

SHIPMENTS.

Where customers have no preference, the choice of route can safely be left to us.

Our commanding geographical situation and matchless shipping facilities enable us to secure the lowest possible freight rates obtainable for our patrons, whether by rail or water.

ALLOWANCES.

All our goods are packed by workmen of long experience and are loaded by our own skilled men; hence we make no allowances for breakage, our Bills of Lading being guarantee of good order when shipped. Claims for packages lost, overcharges in freight, or excessive breakage, should be made on transportation companies immediately on discovery.

MOULDS FOR SPECIAL SHAPES.

Many Bottle users prefer shapes and designs of their own. For all such we are thoroughly equipped in our own extensive Machine Shop to make at short notice moulds for any practicable bottle, and at the lowest possible cost for first-class work. In ordering a special shape, an exact model of same should be furnished. In cases where this is impracticable, our own artist will produce a wooden model of the desired bottle if furnished with the idea by a drawing or otherwise. If we make the moulds no expense will attach for models; otherwise a charge for the actual cost of producing same will be necessary.

Special Moulds should always be in pairs for each size and shape, for **economy's** sake. Where large quantities of bottles are desired this is **indispensable**. Better and more uniform bottles are always secured when moulds are worked in pairs.

The cut herewith shows a mould for an oval prescription bottle. The mould is made of the best grade of gray cast iron, and weighs about 80 lbs

THE ANNUAL SUMMER SHUT-DOWN

Is of the greatest interest to users of private mould bottles. All such should *always* have their orders placed before May 1st for enough ware to carry on their business from July to October. Nearly all glass factories close from July 1st to about Sept. 1st, on account of the summer heat and for needed repairs of furnaces. Thousands of dollars are lost every summer by those who have failed to properly anticipate their needs for special ware.

FINISH.

The ordinary varieties of finish for bottles are given below, which, with slight modifications or combinations of two or more styles, will meet almost every requirement.

Prescription Lip.

Extract Lip.

Packer Lip.

Flare Mouth

Oil Finish.

Double Ring.

Bead Finish.

Brandy Finish.

PART II.

FLINT GLASS BOTTLES AND WARE PATENT OFFICE

UNDER this caption is included a wide range of ware which we will not try to enumerate here, but rather refer the reader to the pages immediately following, which we hope explain themselves.

Pre-eminence has been our constant aim both in quantity and quality, and we wish here to assure our kind business friends, through whose gratefully appreciated assistance we have been able to attain our present position, that the same zealous care will be taken in the future as in all the past to produce and always furnish full value flint ware.

Special attention is again directed to a change in the listed prices of Flint Bottles in order that our list may conform with that adopted by the Eastern and Western Flint Bottle Manufacturers, June 12th, 1900.

There has seemed to be a growing desire on the part of the drug trade for a cleaner, more effective and more convenient packing for prescription ware. In response to this we have adopted a combination paste-board packing that fills the requirements of the case. We now pack all our Prescriptions, except the "Round," in our Perfected Paper Packing. A glance at the cut will illustrate its advantages, a few of which we enumerate.

IT REDUCES WEIGHT AND CONDUCE TO CLEANLINESS.
IT SAVES TIME AND INCREASES BUSINESS.

FLINT GLASS BOTTLE LIST.

TRADE MARK.
REGISTERED.

WE take pleasure in presenting to the trade this NEW PRESCRIPTION BOTTLE, in which we have sought to blend the excellent points of all other shapes in a new design whose graceful lines, large appearance and delicate finish will, we think, commend it to those who appreciate a fine Prescription Bottle.

SUN OVALS.

FLINT GLASS BOTTLE LIST.

THE PREMIER OVAL

is another new Prescription bottle produced to meet the demand for something unique in the way of a footed Prescription. The truthful cuts on this page illustrate its peculiarities and excellencies. In spite of its novelty, this shape has already met with distinguished success, and proved a good and easy seller.

25 cents extra for Paraffined Tops.

THE BATTERY JARS listed above are all regular stock, and for the general trade are packed in cases holding 50 jars. We make a large number of special and private shapes and are prepared to make any practicable shape and size desired. Car-load buyers, especially those who do not need the regular shipping cases, will be made special net prices on Battery Jars, according to their requirements. Correspondence is respectfully invited. Our facilities for turning out large and exacting orders in this direction are very complete and extensive.

PART III.

SHOP FURNITURE.

WE present to the trade our four styles of Shop Ware and Glass Labels for same. The cuts on the following pages show the characteristics of the ware with faithfulness, so far as plain black and white is able to represent transparency and brightness. We believe that, quality considered, we produce the handsomest and best Sets of Shop Furniture on the market for a moderate cost.

We lay special stress upon promptness in this department of manufacture, and can safely guarantee any ordinary set of ware within one week after receipt of order, complete with the glass labels. This naturally leads us to the subject of

GLASS LABELS FOR SHOP FURNITURE.

On the preceding pages will be found lithographs of twenty or our best selling Hand-Painted Glass Labels, as a guide in selection. In ordering, kindly use the printed numbers, noting any change desired. If desired label does not appear, reference by number and name to any other list will suffice. Where something entirely unique is desired, a sample label, or drawing, with color indicated, can be furnished and we will paint a sample label for approval. In all cases where labels only are wanted, if for round bottles, the exact circumference of same where the label is to be applied, must be given; while if for any other shape, a sample bottle should be furnished.

Unless especially ordered, we use only the very best Lead Glass Labels, of full size and with ground edges. Only the best colors are used in painting, and Immaculate Labels are invariably backed with two coats of zinc-white, thus securing white labels that stay white.

Under protest, we can make cheaper labels to meet competition, which will be just as good and handsome as anybody's labels of the same grade and price.

PRICES OF STANDARD LABELS.

Nos. 0, 1, 21, 51, and 113,	- - - - -	10 cents each attached.
" 2, 7, 11 and 84,	- - - - -	11 " " "

GREEN GLASS BOTTLE LIST.

PART V.

Here will be found many of those bottles usually made in Green and Amber Glass that are used by *Manufacturing Chemists, Compounders of Proprietary Remedies, Inks, Mucilage, Bluing, Shoe Polish*, and the like. It is of course understood that a very large portion of such ware is made in *Private Moulds*, differing in some respects from Stock designs as shown in this Catalogue. All such shapes are the property of our customers and cannot be shown here.

Special energy has been concentrated upon the requirements of this branch, and the fact that this is one of the most extensive departments of our business would seem to indicate that our efforts had not been altogether unappreciated.

We invite special notice to pages 89 to 94 on Carboys and other large size Safe Carriers, and solicit correspondence.

PART VI.

SHOW PACKAGES AND SAFE CARRIERS.

SHOW YOUR GOODS IF YOU WANT TO SELL THEM.

The Triplicate Show Case (shown above) is 34 inches long, 14 inches wide and 16 inches high, carries *three* clear Flint Glass Jars of $3\frac{1}{2}$ gallons capacity, and weighs, ready for shipment, 45 pounds. Price, f. o. b. cars, \$6.00 each, complete with jars.

The Duplicate is 24 inches long, 14 inches wide and 16 inches high, carries *two* of the $3\frac{1}{2}$ gallon clear Flint Jars, and weighs 27 pounds, boxed for shipment. Price, f. o. b. cars, \$4.50 each, complete with jars.

The Independent is 14 inches square, 16 inches in height, weighs, boxed for shipment, only 16 pounds, and carries *one* $3\frac{1}{2}$ gallon clear Flint Jar. Price, f. o. b. cars, \$3.00 each, complete with jar.

Larger sizes can be furnished where desirable, at corresponding prices, same style as above, or finer finish if required.

Regular cases, as above listed, are substantially made of Oak, handsomely finished with screen ventilation openings and glazed with the best double strength glass.

A DISCOUNT CAN BE MADE ON THESE GOODS ON JOBBING ORDERS.

SPECIALTIES.

SKELETON DEMIJOHN.

For Laboratory Work or Spring Water Distribution.

A new container of high merit. Bottles are of *clear, light green glass*, affording opportunity for minute and intelligent inspection of contents. The protection against breakage at the bottom is perfect, while the four upright canes or standards afford security for the sides and serve as substantial handles. For the display and distribution of spring waters or intelligent laboratory work this package has no equal.

HIGHAM ROCKER LID DEMIJOHN AND CARBOY BOX.

Regular stock carried without lettering. Special Orders can be printed as desired.

Above cut shows the HIGHAM ROCKER LID DEMIJOHN AND CARBOY BOX. The Round Top cover, as will be noted by reference to the cut, serves three distinct and useful purposes.

AS A COVER, it affords safety in shipment and storage.
IT PERMITS FULL EXPOSURE of bottle and contents when filling, preventing accident and loss of material.

AS A ROCKER BOTTOM, it allows contents to be emptied slowly or quickly, and without waste. Built for service, strongly ironed, with bottles carefully insulated against breakage, this carrier is matchless for the safe shipment and storage of Acids, Liquors, Waters, Extracts, or Liquids of any kind.

For Acids and other Corrosive Liquids, bottles can be furnished with a new patent stopper, which is easily applied, neat and effective, without great expense.

NET PRICES.

1 Gallon capacity, complete with bottle,	\$0 50 each.

12 " "	1 25 "
13 " "	1 30 "
14 " "	1 35 "
15 " "	1 40 "

If Ground Glass Stoppers, 50 cents each additional.

If fitted with Columbian Stoppers, complete with Rubber Gaskets for Non-Corrosive Liquids, 25 cents each additional to above prices.

The above sizes are regular stock and can be furnished promptly on receipt of order.

Special sizes furnished where required.

Net prices on inquiry.

The Carboy business is not an experiment with us, and we confidently invite inquiry from the largest and most exacting buyers.

Trade requiring a Glass Stoppered Carboy should investigate our Columbian Stopper or Ground Glass Stopper before decision elsewhere.

SPECIALTIES.

RUBBER TIRED CARRIAGE.

For the safe carriage of Waters, Oils, Liquors, or other Liquids
to regular customers.

THE KAMMERER PATENT CRATE

as shown has many advantages. It is
SAFE, CLEAN, STRONG, LIGHT, CHEAP.

5-Gallon, complete.....80c each.

Crates, only.....45c "

The five-gallon size only carried in stock. The
two and three gallon sizes can be furnished on
special orders in large quantities at net prices on
inquiry.

CUSHIONED CRATES.

Cut shows the Kammerer Rubber Cushioned
Crate without the bottle, thus illustrating more
effectively its simplicity, strength and thorough
protection of the glass from external violence.
Bottle rests on Rubber Cushions, both bottom and
sides. Having secured from the patentee the
right to make and sell this valuable contrivance,
we are prepared to quote bottom prices with
prompt delivery.

Correspondence Solicited.

ILLUSTRATED CATALOGUE.

PART VII.

The following pages are devoted to that class of bottles which are distinctively used for Liquors in their almost infinite variety and detail.

We are almost disposed to apologize for the profusion of designs in this department, tending somewhat to confusion, and will here state in way of explanation that every design has been tested and proved desirable, all superfluous styles having been dropped.

This branch of the business requires more than usual care in the selection of materials and skilled and careful blowers, annealers and packers. Our efforts in this direction have been very generously appreciated by some of the largest trade. We now commend this portion of our Catalogue to the Wholesale Liquor Trade in the sincere hope that its pages may prove useful both in the selection of Bottles and Cases for same.

Special attention is directed to Demijohns and Wickered Bottles on pages 130 to 133 and also to our Case Department, pages 140 to 142.

LIQUOR BOTTLES.

No 232—Paste Mould.

TALL TURN MOULD BRANDIES.—Flint, Amber or Green.

		Flint.	Colored.
Mould No. 199, 8	to gallon	\$28 00	\$20 00 per gross, packed in 1 gross crates.
" " 159, 6	"	33 50	" 24 00 " 1 " "
" " 203, 5½	"	35 00	" 26 00 " 1 " "
" " 160, 5	"	36 00	" 26 00 " 1 " "
" " 202, 5	"	36 00	" 26 00 " 1 " "
" " 161, 4	"	39 00	" 30 00 " ½ " "
" " 201, 4	"	39 00	" 30 00 " ½ " "

These constitute our line of regular Tall Turn Mould, Brandies, all uniform in shape. Numbers 201 and 202 have a deeper shove-up. In addition to above we have a large variety of 4s, 5s and 8s, differing so slightly from above that it is impossible to show the differences in a cut. BOTTLEERS IN BOND will appreciate this fact and call upon us for samples. We can take care of the most difficult orders, bottles, cases and packers complete. If Tall or Squat Turn Mould Brandies are required in IMPORTED COLOR we can furnish on order at special net prices.

SQUAT TURN MOULD BRANDIES.—Flint, Amber or Green.

		Flint.	Colored.
Mould No. 205, 8	to gallon	\$28 00	\$20 00 per gross, packed in 1 gross boxes.
" " 174, 4	"	39 00	" 30 00 " ½ " "
" " 336, 4	"	39 00	" 30 00 " ½ " "

With Drop Seal, \$1.75 per gross extra, net.

Cut above shows No. 174. No. 336 differs but slightly, having a large shove-up and more slender neck.

TURN MOULD CLARETS OR BORDEAUX.

		Amber or Light Green.	Imported Color.

French Square.

Round.

Philadelphia.

Baltimore.

This Family Group of *Wickered Bottles* is given so that buyers may see at a glance the variety of such goods made, as well as to offer a suggestion as to the elaboration of designs possible in this branch of the trade. In order that the actual proportions of its members may be appreciated, it is only necessary to say that the central figure marked No. 1 is 6 feet high.

The following index by numbers will serve to identify the numbers of the group if one is not familiar with their features:

1	Show Demijohn, Dummy.	27	5 to Gal. Straight Open Shoulder S. Cap.
2	Tall Quart Wickered Bottle	28	4 " " " " " "
3	" 5 to Gal. " " "	29	4 " " Concave S. Cap, open shoulder.
4	" 6 " " " "	30	Pint Onatoga " "
5	" 8 " " " "	31	Quart " " "
6	4 oz. Straight " " "	32	Quart Oval " "
7	8 " " " " "	33	Quart Concave " "
8	5 to Gallon " " "	34	Quart Wickered Bottle.
9	Quart " " "	35	5 to Gal. " " Straight.
10	4 oz. Straight " " open shoulder	36	Quart Bulb Neck Wickered Bottle.
11	Quart 'Chicago' " " " "	37	Square Quart Wickered Bottle.
12	5 to Gallon, open shoulder, straight.	38	4 oz. Straight S. Cap, Ribboned.
13	4 " " " " " "	39	8 " " " " " "
14	4 oz. Straight Wickered Bottle, S. Cap.	40	5 to Gal. " " " "
15	8 " " " " " "	41	Quart " " " "
16	Pint " " " " " "	42	5 to Gal. " " " "
17	5 to Gal. " " " " " "	43	8 oz. " " " "
18	Quart " " " " " "	44	4 " " " " " "

LIQUOR BOTTLES.

OLYMPIA FLASK.

Name Copyrighted. Patent applied for on shape.

WE take pleasure in presenting to the trade our new Olympia Flask, in whose shape we have carefully avoided all the objectionable features of ordinary flasks, but preserving their good points and uniting them in a novel design, which, as will be noted by reference to the illustrations on this page, is not only pleasing to the eye, but is strong and handy, too.

Hand-Made, Strong and Effective.

Also fitted with Metal Handles, if preferred.

CASES.

WE operate in connection with our Glass Factories one of the largest and best equipped Box Factories in the country, and are prepared to furnish *Bottles and Cases complete* where desired.

There are some weighty advantages to bottle users in buying their ware in this manner, a few of which we enumerate :

BREAKAGE of bottles reduced to the minimum ;

FREIGHT on ordinary bottle packages saved ;

EXPENSE of repeated handling avoided ;

LITTER of packing straw with attendant fire risk escaped ;

CHEAPNESS as compared with other modes of handling.

Our cases, whether *dove-tailed* or *nailed*, will always be found of clear, sound lumber, strong, neat, and finished in smooth workmanlike manner. The appliances for *printing* cases are of the latest and best approved patterns. Any practicable design can be worked out and reproduced on cases in one or more colors at a trifling first cost for the necessary brass printing plates, which will be furnished by us, if desired, at cost. Some very pleasing and effective designs have been thus produced, samples of which we will be glad to show to those interested.

There are many useful and convenient devices for protecting bottles and contents in their cases for shipment, and while we are not at all disposed to dictate, we cannot at the same time fail to suggest and recommend the Partition Packing made of Corrugated Straw Board. Anyone who is not perfectly satisfied with their present mode of packing will do well to investigate its merits. It adapts itself readily to almost any shape of bottle and is of no less value, when understood, to manufacturers of Proprietary Medicines, Flavoring or Handkerchief Extracts, Chemicals, Pickles, Preserves, Catsups or any article bottled and packed in uniform cases, than to Liquor Dealers who have appeared to better appreciate its advantages.

We are anxious to make your boxes, no matter what shape, size or packing used, especially complete with bottles, and respectfully invite correspondence on the subject. See cuts of a few representative cases on next pages.

ILLUSTRATED CATALOGUE.

PART VIII.

PICKLE AND PRESERVE WARE.

THIS Department of our manufactures covers considerable ground. In arranging the same we have endeavored to collect under this head all those bottles and jars which are used distinctively for *food products*.

Every care has been taken to secure shapes and sizes suited to every need, evidence of which may be observed in the five shapes of English Chow Bottles differing so slightly one from another as not to be noticeable except to the close observer. We might also direct special attention to our line of Olive Bottles on pages Nos. 148 and 149.

Uniformity of finish on wide mouthed ware is one of the many details on this class of ware in which it is our effort to excel.

We therefore commend these pages of our Catalogue to all *Bottlers of Food Products* in the earnest hope that its pages may prove both interesting and useful.

Attention is directed to new shapes all through this department.

Complete with fittings, as per cut.

These Bottles are furnished with the patent Lightning Stoppers, as shown, making one of the most perfect carriers or containers for milk or cream ever discovered. These moulds are all arranged for plates, so that lettered bottles can be furnished at a small additional cost on first order only. The capacity of these bottles is very accurate, and they are blown of clear fine glass, but strong and good weight.

THE COMMON SENSE MILK BOTTLE.

Combines many of the excellent points of the bottle above shown, with a simple, cleanly and economical patent stopper or disc, which has recommended it very highly to progressive milk dealers. Its simplicity and excellence can hardly be overstated.

Retaining Wires and Cork Strips Extra.

This new Container, as illustrated, with Glass Stopper and Cork Strip, entirely overcomes the objection to a rubber washer or metal contact with acid contents. The retaining wire can be replaced with cord if preferred. This closure has been demonstrated secure in actual use by large consumers, and can be thoroughly depended upon.

ILLUSTRATED CATALOGUE.

PART IX.

This department of our Catalogue comprises all of those bottles which are used by Bottlers of Soda Water, Lager Beer, Weiss Beer, Mineral Waters, Ale, Porter and Cases for same.

We have given great attention to this particular branch of our business, and can assure our patrons that in the variety of shapes, toughness of glass, excellency of workmanship and careful attention to the finish and selection of ware, we have spared neither expense nor care.

The extent of our business in this particular direction, taken in conjunction with its annual increase, we are only able to explain on the ground that the trade recognizes our product as superior.

We would direct special attention to our line of Cases, beginning page 198.

SIPHONS.

These Bottles represent the acme of the glass blowers' art. Every step in the progress of their manufacture, from the selection of materials to the packing of the finished product has been jealously guarded. The result is a Siphon good to look upon in its symmetry and beauty, and as strong as steel.

Our Siphons are guaranteed to stand a pressure of 200 pounds (Standard Gauge), upon the first filling. After this proof of strength our responsibility ceases.

SIZES AND PRICES.

28 oz. capacity Siphons, complete,	75 cents each.
37 " " " "	80 " "
44 " " " "	85 " "

In lots of 500 or over a small discount can be given from above prices.

Siphon. Style A Head.

Above prices include the cost of stamping heads and etching bottles with firm name, in lots of 100. Where elaborate designs are required, a small additional cost will attach, depending on the nature of the work.

STYLES OF HEADS.

We recognize the preference of each bottler in the selection of the style of Head for his Siphons, and have made arrangements to furnish any kind of head desired.

The head shown on above cut is regarded by many as the best in use. In ordering, state *size* of bottles wanted and specify *head* by letter as illustrated on following pages.

SIPHONS.

STYLE A.

STYLE B.

Note six styles of *Siphon Heads* illustrated on this and the next page. They all have their strong points and are all first-class, both in design and workmanship.

In ordering please use the letters A, B, C, D, E or F to designate style wanted, as shown on these pages, thus avoiding misunderstandings.

On the second page following will be found prices on Siphon Heads only, and all parts thereof.

STYLE C.

STYLE D.

SIPHONS.

STYLE E.

STYLE F.

All our Siphon Heads are made of Pure Block Tin, properly hardened. All inside working parts are carefully selected and plated.

The sectional cuts below are designed to give one a correct idea of the interior construction of three representative Heads. The advantage of the Siphon Head, Style C, Walter's Patent, is that by its construction the breakage of Siphon necks and tubes is altogether prevented. Note cut showing rubber cushion "A," which rests upon the metal part of tube. Additional advantages consist in the facts that filling is rapid and discharge uniform, while repairs are made easy, there being no pins to remove. The caps unscrew and the lever can then be unhooked, exposing the working parts. These Heads are made in four different styles, C, D, E & F.

Section STYLE B.

WALTER'S PATENT,
(Style C.)

Section STYLE F.

SIPHONS.

Siphon Bottles, as well as the various styles of heads and working parts of same, are kept on hand at all times in quantity, so that the largest and most exacting orders may receive prompt and intelligent care.

Skillful etchers in our employ are prepared to work out any design artistically, whether plain or elaborate.

Correspondence on Siphons or anything pertaining thereto is respectfully invited.

SODA OR MINERAL BOTTLES.

	Height.	Width.	Capacity.	Weight.	Name Plate.	Back of Bottle.
Mould No. 488.....	7 $\frac{3}{4}$ inches.	2 $\frac{3}{8}$ inches.	8 ounce.	15 ounce.	Round.	Plain.
" " 499.....	8 $\frac{1}{8}$ "	2 $\frac{7}{16}$ "	8 "	15 "	Round.	Plain.
" " 511.....	8 $\frac{7}{8}$ "	2 $\frac{3}{8}$ "	8 "	15 "	Round.	Plain.

Numbers 488, 499 and 511 are all designed for the Crown Cork Finish.

No. 511 is lettered around bottom under name plate, "This bottle not to be sold."

ON the pages just passed we have illustrated and described the largest and best assorted collection of Half Pint Sodas ever seen in print, consisting of fifty distinctive shapes. Some of them may seem at first glance very similar, but in every case there is a decided difference, which will appear on close observation. Every bottle has been carefully planned to meet the views of some good bottler. We have no pet theories to air on the subject of Soda Bottles, but content ourselves with making what the best and most progressive bottlers need and use, and are always open for their advice and suggestion.

Beginning on next page we show a full line of Quart Sodas or Mineral Waters, and immediately following a full line of Beers of every shape and kind.

HUTCHINSON STOPPER.

We have on hand at all times a large stock of Hutchinson Stoppers, all sizes.

We can furnish buyers at bottom prices at any time, making shipment with bottle order, and thus save expense and delay.

We Can Also Furnish the Celebrated
PUTNAM'S LIGHTNING STOPPER,

which we offer to the trade either attached to bottles or in bulk. Bottlers can avoid vexatious delay and embarrassment in buying these stoppers attached to bottles, thus securing the exact size needed. Stoppers will be attached by experts who thoroughly understand just what is required.

Lightning Stopper.

PAT. FEB. 7, 1893.

Hutter Stopper.

THE HUTTER PORCELAIN STOPPER.

This elegant and effective stopper is now within the reach of any in price who require such goods.

We are prepared to furnish plain stoppers attached. Lettered Stoppers can be secured by placing orders three months in advance of needs.

Write for prices if interested.

BOXES FOR BOTTLERS' USE.

We can furnish CITY BOXES OR SHIPPING BOXES at short notice and in any quantity.

Our BOX FACTORY is equipped with latest improved wood-working machinery, and supplied with an ample stock of well seasoned timber. We guarantee the best possible service in furnishing HANDSOME, SERVICEABLE and HANDY BOXES for BOTTLERS' USE.

Parties buying their bottles of us will save money by placing their orders for *bottles and cases together*.

Some of the advantages gained are these :

Your bottles when received are in boxes of the *exact size and kind wanted*.

Breakage of bottles in shipment is almost entirely avoided.

A great saving in *freight charges* is effected, especially in shipments of less than car load lots, because bottles packed in cases are shipped at a lower classification than empty cases.

Bottles thus shipped are received free from *chaff* and *straw*.

Shippers' count can be verified at a glance, and controversy as to number of bottles received avoided.

In a word, buy *Bottles and Boxes* of us and save *time, trouble and cash*.

Buyers will find it to their advantage to secure our figures before placing their season's contracts. We are prepared to do some close figuring on large contracts.

If you need BOXES for BOTTLERS' USE, let us know it. We want your orders, and will try to merit them.

ILLINOIS GLASS COMPANY.

No. 1 PATENT CITY BOX, WITH SAFETY RACK.

No. 1 Style.

This cut shows the No. 1 Case arranged for 2 dozen $\frac{1}{2}$ pint Sodas, weight, $7\frac{1}{2}$ pounds.

The cut below shows the same style arranged for 1 dozen Beers or Apollinaris and which in previous issues of our Catalogues are listed as No. 4 case.

PRICES ON No. 1 CITY BOX WITH SAFETY RACKS.

CAPACITY AND CONTENTS.	ENDS, $\frac{7}{8}$ IN. SIDES, $\frac{7}{8}$ "	ENDS, $\frac{3}{4}$ IN. SIDES, $\frac{1}{2}$ "	ENDS, $\frac{7}{8}$ IN. SIDES, $\frac{5}{8}$ "

4 " Pints.....	60 "
$\frac{1}{2}$ " Quarts.....	20 "	22 "
1 " Quarts.....	30 "	33 "
2 " Quarts.....	50 "

Above prices are net, figured on the best quality of clear Lumber, Gum Ends and Cottonwood sides. Other selection of lumber on special order if desired.

These prices should not be used for comparison by those who have been used to a cheaper and lighter pine box. We do not make such, except on order, but will quote net prices to those who must use a cheaper case.

IN ORDERING BOXES,

Furnish Sample Bottle or give our mould number of the bottle you use, also give style of box by number as listed in this catalogue, noting any variations from the regular construction you may desire.

No. 1 Style, Deep (Old No. 4.)

No. 2 SHIPPING CASES FOR SODA AND GINGER ALE.

This cut shows the proportions of the 2 Doz. No. 2 Shipping Cases for $\frac{1}{2}$ Pint Sodas.

The cut below shows the same for a 4 Doz. Case listed in our previous catalogues as No. 7.

No. 2 Style.

PRICES ON No. 2 SHIPPING CASES.

No. 2 Style (Old No. 7)

Above prices are net, figured on best grade of clear cottonwood.

If cheaper cases are desired, send specifications and we will make prices accordingly.

Those listed on this page are first-class in every respect and good value for the money asked.

No. 3 PATENT CITY BOX WITHOUT RACK.

No. 3 Style.

Cut shows our Regular No. 3 City Case for 2 Doz. $\frac{1}{2}$ Pint Sodas, the lightest and most compact case possible to make and yet possess the strength required for hard service. Regular construction is of Gum Ends, balance of box clear, sound, dry Cottonwood.

PRICES ON No. 3 CITY BOX.

3 " $\frac{1}{2}$ Pints.....	45 "	50 "		
4 " $\frac{1}{2}$ Pints.....				72 cents.
6 " $\frac{1}{2}$ Pints.....				\$1 20
2 " Pints.....	45 "	50 "		
3 " Pints.....			55 cents.	
4 " Pints.....			80 "	
1 " Quarts.....		42 "		
2 " Quarts.....		90 "		

The upper cut shows the style and make up of the No. 9 case when adapted to $\frac{1}{2}$ Pint and Pint Bottles, 4 and 6 dozen capacity. The lower cut shows the proportions when built for 1 and 2 dozen Pints and Quarts.

The above prices are figured on Sound Dry Cotton Wood boxes with Gum Ends, a construction that will outlast pine boxes 2 to 1.

If a cheaper box is required we can make them, but recommend the above as more truly economical.

No. 9 Style, Deep.

BOX LOCKS.

THE LEO LOCK.

oughly protected by the United States Patent Office, care should be used in purchasing from unauthorized sources. Correspondence solicited.

THE LEO LOCK.

Pat. Oct. 6, 1896.

Strong, simple, compact and secure. It locks itself and is easily unlocked without injury to the fingers or delay. Seal and wire readily attached.

Price, 4 cents each.

Discount on Jobbing Orders.

THE BEEHLER BOX FASTENER.

Pat. April 19, 1887.

This Fastener is so well known that it is only necessary to say that WE HAVE ACQUIRED THE SOLE RIGHT TO MANUFACTURE AND SELL THEM.

Price, 4 cents each.

Discount on Jobbing Orders.

Patented April 19, 1887

BEEHLER LOCK.

BOX LOCKS.

THE SECURITY LOCK.

THE SECURITY LOCK. Patent Applied For.

This is an **INSIDE LOCK** with spring catch, compact, safe and cheap. Its construction overcomes the objections to all other similar locks in its **ADJUSTMENT** by which the lock can readily be changed to suit changes in the relations of the parts of box, caused by swelling or shrinkage (see back of horizon-

tal bar which forms the catch); also in case of breaking or weakening of spring the catch can be easily removed and spring replaced. The application of seal and wire is simple and effective; wire is passed through the opening-hole in front of box, through the hole in catch and out over the edge of box, and is sealed at the opening-hole out of harm's way in piling. These advantages, with its reasonable price, will commend it to those who appreciate a good thing in **SPRING LOCKS**.

Price 5 Cents Each.

Discount on Jobbing Orders.

THE ACME LOCK.

Patented March 11th, 1890.

Simple, strong and easily applied. Many prefer this lock to any other on account of the small outside space taken by it, its simple and effective action and its low price.

Price 4 Cents Each.

Discount on Jobbing Orders.

THE ACME LOCK.
Pat. March 11, 1890.

The cut in margin of this page will give an idea of the

PATENT TWISTED WIRE STRAP

for boxes, which is far superior to the old style Band Iron. More economical, more easily applied, more serviceable.

Cut in lengths as required, at 60 cents per 100 feet. In coils of 3,000 to 5,000 feet, special prices furnished on inquiry.

BOX TRIMMINGS.

In addition to Box Locks previously shown, we carry in stock a supply of the following Standard Box Trimmings which are specially designed for the purpose. They are strong, well made and properly countersunk for box use. We will be glad to furnish same in large or small quantities as needed—see Cuts below.

PLAIN STRAP HINGES.

4 inch.....	50c. per dozen pairs.
3 ".....	40c. " "

SPECIAL BENT HINGES.

2¾ inch bent for ⅝ or ⅞ stuff.....	50c. per dozen pairs.
------------------------------------	-----------------------

HASP AND STAPLES.

3 inch.....	50c. per dozen pairs, plain.
3 ".....	90c. " " with catch.

Discount on Jobbing Orders.

THE LITTLE DETECTIVE BOX SEAL,

at \$2.50 per M.

Cuts show the Seal and its application to box. It strengthens box and protects contents in transit.

**BOTTLE WRAPPERS OR COVERS.**

We list here a few of the best known and effective Bottle Covers which can be included in shipments of bottles from the works, saving time and expense.
